

RELEASE NOTICE FOR SWAR LIBRARIAN

Version 1.4.5

Platform	Improvement
Win	Corrects a problem on Vista/Windows 7 where drag&drop was not creating a MIDI file.
Win/Mac	Moves Bases folder to the user data folders, to avoid any remaining rights issues on Vista/Windows 7/Lion.

Version 1.4.4

Platform	Improvement
Win only	Corrects a problem in Windows 7/Vista where no playback was heard.
Win/Mac	Ready for multi-layer instruments.

Version 1.4.3

Platform	Improvement
Win/Mac	All enhanced bases. Multi-cyclic lehras and rhythms, extensive use of meends and volume modulation, chords on Harmonium, etc...
Win/Mac	Improved look & feel. Removed frames around some controls and used new icons in tree.
Win/Mac	Optional larger skin available through installer.
Win/Mac	Sometimes a meend in the last cell was creating a strange effect when looping.
Win/Mac	Fine-tuned Rabab patch.
Win/Mac	Improved Swar Librarian icon (adjusted at all standard sizes)
Win/Mac	Various other bugs fixed.
Win only	Program is now launched as an EXE file (Librarian.exe)
Win only	Recompiled in Java 6 for better performance.
Win only	Now also runs on Windows 7
Mac only	Cell progression was automatically wrapping before the end of some long sequences.
Mac only	CPU consumption was increasing after long stretches of playback, leading to strokes being missed or left hanging.
Mac only	Now also runs on Java 6 and Snow Leopard (Mac OS 10.6)
